

+ ONLINE TRAINING SOLUTIONS

Increased productivity, reduced employee turnover and promoting a mentally healthy workplace are just some of the many good reasons to provide your staff with proper training. Even the most experienced managers need to keep up with current workplace legislation. Letting this slide exposes your organisation to risk.

Since 2013, WorkPlacePLUS has been facilitating professional development and workplace training programs to leaders and teams in Australian healthcare, aged care, community service and not-for-profit workplaces.

“WorkPlacePLUS delivered a very practical and insightful training program for our senior leadership team. I would highly recommend the services of WorkPlacePLUS to any health or NFP organisation.”
